

Nest Tree Number:

WILDLIFE TREE STEWARDSHIP PROGRAM - 2010 Season

Nest Observations Form – WiTS Monitors

Monitor(s) Name:	Phone Number:
Organisation:	Is this a new tree or site: Y N
Tree Name:	
Regional District or Local Government:	
Wildlife Species being monitored:	

Date:	Time:	Survey type: Ground	Marine	Aerial
Does the nest appear tended: Y N		Adult incubating: Y N		
# of adults perched on the nest:	In nest tree:	Within 50m:	Within 200m:	
# of eggs:	# of chicks:	# of immature birds within 200m:		
Notes:				

Date:	Time:	Survey type: Ground	Marine	Aerial
Does the nest appear tended: Y N		Adult incubating: Y N		
# of adults perched on the nest:	In nest tree:	Within 50m:	Within 200m:	
# of eggs:	# of chicks:	# of immature birds within 200m:		
Notes:				

Date:	Time:	Survey type: Ground	Marine	Aerial
Does the nest appear tended: Y N		Adult incubating: Y N		
# of adults perched on the nest:	In nest tree:	Within 50m:	Within 200m:	
# of eggs:	# of chicks:	# of immature birds within 200m:		
Notes:				

- Please fill in only the boxes that are appropriate.
- When counting the numbers of birds present, do not double count, for example: if a bird is scored as perched within 50m of a nest, do not also score it as being perched within 200m.
