Volunteer Confidentiality Form

The provision of personal information, defined as names and addresses, and associated conversations of landowners that have Wildlife Trees including Bald Eagle Nest Trees, if provided by Federal, Provincial, Local Governments and the Federation of BC Naturalists, falls under the Freedom of Information/Privacy Policy of each of these agencies. Personal information (as defined above) collected on new nests or on those nests not provided by above agencies is to be treated as confidential unless the landowner has indicated in writing that this information can be released to the general public.

To ensure that the personal information as defined above are maintained as confidential, we request that you sign this sheet which states that:

_____ (type in name of the volunteer being addressed)
agrees to retain the confidentiality of the personal information as defined above. This information is not to be made available to any third party or to be used for any other purpose than as needed to get landowner permission to enter properties to monitor nest trees.
